## “Vietnam Folk Tales I want to share with the people of Saijo!”

### “Cuoi and the Banyan Tree on the Moon”

The “Otsukimi (Moon viewing)” Festival is coming soon! The Festival is on August 15 of the lunar calendar. This year it falls on October 4. In Japan, people eat rice cakes called “Tsukimi Dango” and enjoy the beauty of the full moon. In Vietnam, family members get together, eat sweet cakes and enjoy the full moon.

Look at the dark part of the full moon. What do you think it looks like? Japanese people see a rabbit pounding steamed rice into cake on the moon. We Vietnamese see a man named Cuoi sitting under a banyan tree. I would like to tell you the reason why we see Cuoi and the banyan tree through a Vietnamese folk tale!

\*\*\*

Long ago, there was a man named “Cuoi” working as a woodcutter. Cuoi met a tiger in the forest one day. He killed the tiger, but another tiger suddenly appeared. As quickly as he could, Cuoi climbed up a tree.

The second tiger took some leaves and fed them to the dead tiger. To Cuoi’s surprise, the dead tiger came back to life. Understanding that the tree’s leaves had magical powers, he waited until the tigers left. Cuoi uprooted the tree to bring it home.

On the way home, Cuoi noticed a dead man lying on the road. Cuoi fed some leaves to the dead man. The man opened his eyes and came back to life. Cuoi told him about the tree, and once he saw it, the man said, “This is a magic tree! Give it clean water! If it is watered with dirty water, something bad will happen!”

Cuoi replanted the tree by his house and took very good care of it. He used the leaves of the tree to cure sick people or bring them back to life if they died.

One day, he rescued a dead dog floating on the river, and from then on, the dog followed him around.

Another day, an old man’s beautiful daughter had just drowned in the river. The old man desperately asked for Cuoi’s help. Of course, Cuoi could revive the man’s daughter with the leaves. Grateful for saving her life, the daughter asked her father for his permission to marry Cuoi. Her father accepted, and they were happily married. Then, the couple and the dog lived a peaceful and happy life.

One unfortunate day, some thieves came to their house when Cuoi was at work, and they killed his wife. The thieves heard about how Cuoi could bring the dead back to life, so they ripped out her intestines and threw them away. When Cuoi came home, he found his wife dead. He hurried to give her the leaves, but she would not come back to life without her intestines. His dog saw how depressed his owner was, so he offered to give his intestines to Cuoi’s wife. Cuoi was very grateful to the dog and was able to revive his wife.

However, from that day, Cuoi’s wife changed a lot. No sooner had she heard something than she forgot it. Since the tree was very special, he always reminded his wife to water it with clean water. However, one day, when Cuoi was out, his wife watered the tree with laundry water. The tree swayed from side to side vigorously and began to uproot itself. Just then, Cuoi was coming home. He quickly grabbed the roots and tried to pull the tree back to earth, but the tree continued to float up into sky. Eventually, the tree pulled Cuoi to the moon where he and the tree live to this day. Years and decades have passed, but Cuoi still looks at the Earth wondering how to get home!

\*\*\*

I hope that I could convey a story of human love and the friendship between a man and his dog. Now, whenever you look up to the moon, can you see the shadow of the banyan tree with a man named Cuoi sitting below?
